

ANGLE CUT-OFF TOOL RED ROOSTER RRG-1040AL

Red Rooster Angle cut-off tool. With its long neck of 300 mm combined with a low angle housing of 38/42 mm, this tool gives very good accessibility for e.g. various types of dismantling. The safety guard is easily adjustable in 11 different positions. Spindle lock simplifies the replacement of the cut-off blade. Silenced exhaust directed backwards.
